

## About This Report

The Company has prepared the content under the topic “Business Sustainability Development” as part of the Form 56-1 One Report 2025 (Annual Report), which has been approved by the Board of Directors. This report aims to communicate the Company’s strategy, business direction, processes, and performance in delivering sustainable development and long-term growth. It focuses on material topics that are significant to the business, its stakeholders, and the achievement of the United Nations Sustainable Development Goals (SDGs).

The report has been prepared in accordance with the Global Reporting Initiative (GRI) Standards 2021, at the “in accordance with” level. It also aligns with other internationally recognised frameworks, including the United Nations Guiding Principles on Business and Human Rights (UNGP), as well as relevant industry- and geography-specific indicators under the FTSE Russell ESG Scores.

### Reporting Scope

1. The information presented in this report covers the Company’s core operations for the period from 1 January to 31 December 2025.
2. Financial performance data disclosed in this report is consistent with the Company’s audited financial statements for the year 2025, which have been reviewed by the external auditor with an unqualified opinion and without any observations.

### Changes in Material Sustainability Matters Compared with 2024

None, as this is the Company’s first sustainability report.
